TRINTON, N J Out 30 Judge Woodrull, of the county court informed Sherill Ege yesterday that unless some settlement is soon reached in the fight for the country of the county a affairs be tween the rival Republican and Democratic boards of fresholders, he would be compelled to turn loose all the prisoners in the county jail who are awaiting trial There can be no trials until the boards agree and money is furni had to pay the courts expenses. The sheriff has borrowed all the money be could raise. Judge Woodruft has been the to draw no salary for nearly a year and the lay judges and prosecutor have several months saluries due thom. The tie up is due to the action of the last Jegisli ture in passing a law abolishing the old boards in Camden, Mercur and Passaic counties, and providing for new boards which would be Republican. The Camden Mercur has the continuity of the law, and no decision has been reached in the court

I look banth his wife and two child rea occupied by front apprenents on the first floor one flight up and in the frent rooms. I was not up resident the first floor one flight up and in the frent rooms. It was on the second rear in the apart in the suck of the Bondillers that the Friedmann family hyed in In all there were probably forty persons askep in the heat e when the first started in the cellar and prompt rescut along saved them from death. In alarm was lead them from death. In alarm was lead to promptly but not a moment, loo soon as the hall ways were enveloped in flames.

There was no chance for the police to rous, the fraults except by shouting breats the transfer except by shouting breats of the interest and a series.

The smoke penetrated the rooms on every floor in less than five minutes after the flames began to think rootward and la two manites after the police reached the hous the fire estape was awarning with thit clad, in in many cases.

Almost Naked Fleures

walk

All of those n the front of the house escaped, but while they were being rescued a tragedy was being ennoted in the rear apartments on the second floor, where Nathan I redman, a poor furrier, was making a fight to

that he is l'erry Brown, one of the Gook gang. He said he was not the man wanted but the officials say they have criminating cyldence against him and will proceed with him to look, sister of Bill cook, was ar lested in this place yesterday and was taken to Port Smith let night. Im Gook brother of the hundit is der whose trial came up yesterday at table quith I 1, has his case continued bill. Nov 3. This has proved one of the most expensive tritists the nation has even undertaken and it has been continued three times before.

FALL RIVER AFFAIRS
Most of the Mills Resumed Operations thas morning Repairs limit are only in the morning the series of the results of the remark and only in the wife is not did not obey. Filedman made his way to a cornt window, near which a skinder it on ladder ran from the yard to the roof. He descended this ladder, expecting his wife would follow, which thad years to the seeth form of his wife shoot down wird from a window of the kitchen of the seeth form a window of the kitchen of the wife shoot down wird from a window of the kitchen of the seeth form of his wife shoot down wird from a window of the kitchen of the cities of the results and the first discretion of the seeth form of the wife shoot down wird from a window of the kitchen of the cities of the results are to first of the reduced the properties.

Ars Friedmin struck the bottom of the cellar arct just outside of the point where the fir. Is supposed to here struck Strange to say she sustained no broken bones and she ran up the are stars in the rear of the yard. Her clothing, however, was abluze and before a could be extinguished the unfortunate wom in was probably fatality burned. As to Friedman, he handed his light, despite the only cone of the infint daugiter the only one of the family save blusself who escaped un so thed, through the window of an adnamy save himself who escaped in ac thed, through the window of an adjoining house and tren started back to get his other children. It was too lute, the dance smoke would not permit is, and the half crazed busband helped his suffering wife toto a nearby house. In the meantime, the engines had been flooding the house with water and in an hour the fire had been extinguished and, the house cleared of smoke. The two I riedman children were fround lying daid side by side in their little bed just as shey had fallen asleep the night before Aot a hair of their beads had been singed and none of the bodies had been touched by the flames. In a bedroom were the hodies of Lena Mitchell, a cousin of Mrs Friedman, and Annie Applebatt, who boarded with the family Neither of the glits had moved apparent ly ard their faces looked.

ly ard their faces looked

Calm and Peaceful.

On the floor above Jucob Killian was found lying doubled up alongside of his bid as if he had made an effort to criwl to a window and had been overcome in the act. George Lovey had also managed to get out of the bed and his body was found on the floor Aged Mra Killian had died inst as the slept.

The fire on the second and third floors bad spread through the central rooms leaving the extreme front and rear rooms unfouched. The cellar was gutted.

Fire damage to the building is estimated at not more than \$300. The lose of the tenants, however, will swell the total damage to a much larger figure. NEWSPAPER MEN IN TROUBLE Charged with Criminal Libel New Hayen, Ct. Oct 80 Chris-ppher F Downey, John Walsh and topher F Downey, John Walsh and Robert O Tuple, proprietor, editor and reporter respectively lot the Waterbury Saturday Globe, were parcested and taken to this city this morning on the charge of criminal libel. They were taken befole Judge Cable and held on three counts. The complaintants in the case are Frank Mussenhultr, a merchant, Prederick Bissel, a collector, and Frank Rowshield a carriage manufacturer. Bonds were furnished and the cases continued until Saturday. topher F

WEDVESDAR, OCTOBER 31, INDA

Hill and Cleveland. The campaign is now nearly over in New York and as evidence of the particular style of harmony that prevails among the Democrats we quote the following | cents a day in Germany, while our tailors from the Sun

Mr Grover Cleveland was never more like himself than when he sluck away to Washington on I buraday. He had retured to lift a pen or say a word in behalf of the New York Domocracy, which picked him up from the foot of the Eric county gallows and made him Governor and President. He had seen the Democrats of New York lighting for the life of their party against a combination of Republicans made conflicted to f victory by his amazing blunders, and treacher.

there is not chligated on he plant to no a with a fit to prity. A the rever has feel and my feel to the fire the field of Divid ten extiluted to over Clevilland, we in the a like some the Souther Hill bring the northern despite Clevilland at the resident manufaction and treat Hill. Norther is a factory the other

The makes did the more a driving the mandest difference between all is two actioned or of the sepadal more set of thild without exception which is never hicked to bury it, personal technique has prevented to bury it, personal technique has prevented to bury it, personal technique models ring for the election of the volund in the front pank of the effects most reflects most influentation. itters most rithusustic pitripuis. It is till is mitividual al litty had not invariolly put him far beyond all olihira is a compagnir he would still have been co-specious for divotion to the party trik!

Mr (beeland, on the other hand puts personal prejudic and confortabous Depresonal Project Confortable Mr. Cleveland, on the other hand puts

Now that the #Idl man have given up all boys of any help from Oleveland, but the ragged and starving workmen they do not besit its to free their mings on the surject of his augmitted. With going right to New York to fell Merton's the Republicars untied and the Demoof one on journy about it, and then on to
critishus fighting among them-tives. One to fell McKinley's 109,000 labor for a Republic in victory grows brighter every day.

How It Worked.

In his speech at Lowell says the Botor Journal, Candidate Russell expressed regret that Schutor Gullinger in his remarks upon the practical working of the iow tariff of 1536 had not quoted Press-lect Euchanan's message of 1507. It is evite surgly the emission Here is what tresident forbinm and mithat

bound out. With an an an extension of the colour of a find of the changes of attract wealth, our man afacturers have user added our public works have user added our private enterprises of different traded our private enterprises of different traded our private enterprises of different traded our private continued and thousands it useful thours our different and retructed to want. We note possessed all the elements of many creat wouth in rich abundance, and yet norwithstanding all these advantages are country, in its monet by afterest is in a deployable condition.

But the conditions which Tresident by charact this neticed were ret of 11- Ut) of Bangor 6, conferging. Thry had been observed City of Newport 5s, In 11 14 They had, it is true; become bugiteten is 1851, President Hallmore in his missage to Congress, gave this accough I the workings of the low family

could 4 the workings of the low burth. The value of our exports of bread of board provisions, which it was supposed the incentive of a low upin and rings importations from abroad would be greatly surpointed, has folial from \$5,000,000 in 1847 to \$21,000,000 in 1851, with almost a certainty of a still further reduction in 1852. The policy which not tred a low rate of duties on foreign in religiously, it was thought by the still bed it would trad allow into the forming the families of definition of this bountry by interesting the chain of airl cashing to place of agriculturel products in foreign warkets. The foregoing facts, however term to show inconfestably that no such result has tolleyed the adoption of this policy.

Rupotici that confident Rusell discribbes Prosident Fillinore as "on net dental I resident' who held no rank as a stateshion. The facts which President followise cited are however, matters of ecord and his statement furnishes in t resting contemporaneous testimony reguiding the workings of the turiff. The year before President bilimore sent this message to Congress, certain citizens of probabiled in this State, among them Mr Samuel Bowles, then editor of the Rethe which they described as follows the effect of the turnff on New England in-

dustries

"The subscribers indubitants of the town of Springfield, in the county of flampden and Commonwealth of Massa-hussits, would respectfully call the attention of Congress to the situation of the industrial pursuits of the country in general and more particularly in this place and its vicinity, as affected by the operation of the turing 1846 Previous to the passage of that law the manufacturing and michanical interests in this comondaity were in a flourishing condition and all other classes were prosperous. Since that time the condition of things has entirely changed and it is fully believed that much of the stagnation of business may be traced to the operation of that law. Manufacturing languishes, mechanics are thrown out of employ, business of all kinds is dul, and unless protection can be afforded to our laboring classes poverty will overtake laboring classes poverty will overtake

them. "The subscribers, therefore, pray that Congross will so alter the tariff of 1846, as will protect the labor and capital of the country from foreign competition. "June 12, 1850."

Candidate Russell will perceive that there is no lack of contemporaneous testimony regarding the tariff of 1846, which justified the Boston Herald, in a moment of unexpected candor, in saying that business in that period was "on continuous nightmare from its variou depressions and worrsome hardships."

Eli Perkins has Fun With Harvard College Free Traders. "The skim-milk, weak and idiotic ar guments of the college free truders in New England," said Ell Perkins to a Boston Journalreporter, as the sage was passing through Boston to New York. make me tired. To day one of these Harvard free traders on the Boston and

mer 1 nannaf blo bommirged a otal "What did he say?" asked the re-

porter. " He turned on the tanner with his calloused hands and squeaked out: Why, my gracious me! You laboring men ought to know that with free trade you can buy your cont theaper ' " 'Les,' said the tanner, 'you will buy your coat cheaper, but the cloth will be made on the other side, your home mills

will stop and your home tailors will be idle in the street. " 'But why can't our tailors w heap as they do in Germany and Lingland " asked the disciple of Russell.
"They can,' said the Salem sunner,
'and they will or starve A tallor gets 60 get \$1 a day here, and the best Tremont

MACK VESPER'S PAGEANTS.
So speaks Shakespeare of those dark, sombre douds that we aften see towards alght. They foretell a storm. Just as surely do functional irregularities and found derangoments? foretell a like of suffering or an early grave. Be warned by those symptoms, Thousands of once affilted women have driven away discase and death, by taking in time Dr. Pierce's Favorite Prescription. Send for the douboy's large treaties (188 pages) on diseases of women. It is profusely State board of health, went to Detroit to investigate the cause of the typhold tever epidemic in that town. He had just finished an investigation as to the oause of the diphtheria epidemic in Farmington. He said he was not ready as yet o make a report, but it was evident that the disease was introduced into the school from the outside, and did not have its origin there. No student in the norms department had been sick with he, which so far as the school is concerned, was confined to the model rooms. where small scholars assembled. Every thing in the rooms likely to dause a spread of the disease was burned, such i articles as books, pencils, etc.

Governor Cleaves has been requested to speak in the New York campaign and will address a great mass meeting in Al-

bany on Friday of this week. Heavy teams were engaged at Dexter Saturday in removing the soldiers' monament, which is now being put in position in front of the Baptist church.

Dexter people are interested over a large mother bear and two cubs killed a few days ago in Elliottsville by F. J. Gerry, of Garland. The conne agree that the "polt" on the old bear is the handsomest piece of bear fur they ever saw.

"ButtercupGold and Other Stories,"the kindergarten book written by Miss Ellen Robena Field, which was recently noted in The Whio, has just appeared from the press of Charles II Glass & Co. It is an excellent publication in every way. It is on sale and there will without doubt be a great demand for it. The Firemen's Relief Association and

nual concert and ball will take place at City Hall next Friday evening and arrangements are being made for a most enjoyable event. The concert will be given from 8 to 9 o'clock by some of Sangor's best local talent and then dancing will commence. Supper will b served in the banquet hall by Mrs. Lutz. The annual concert and ball of Division

No. I, A. O. H., in City Hall, Wednesday evening, November 7th, will doubtless ittract a very large number. There will be a concert by the orchestru nided by some of the best local talent. The grand march will begin at 9 o'clock. Supper will be served in the banquet hall An efficient committee of arrange ments has the affair in charge.

WEIGHING MACHINE THIEF

Paid an Unwelcome Visit to Bangor. Various sections of the United States have been recently receiving a visit from weighing machine thief, who has made this branch of the pilfering industry his especial business. He was in Portland a day or two ago and struck Bangor early Monday evening. He watched his chance very carefully and when nobody haupened to be near made a successful break at the Maine Central depot.

The weighing machines are the centn-the-slot variety, and those located in the baggage and men's waiting rooms were the ones broken into. The thief smashed in the lock, cut the canvas bug, took the contents and departed without a soul knowing it. The theft was not discovered for some time. As It hap pence the money had been taken out hat forenoon so there could have been only a few cents in each. The thief was

Our Own Folks and Other Folks Mr C. B. Hail, of Belfast, is in the city.

Mr C W Jones, of Augusta, is in the eity. J F Sprague, Esq , of Monson, is in

the city. Mr. H I Nelson, of Portland, is in the city. Mr George Peirce, of Frankfort, is in

the city Mr. B F. Brown, of Portland, is in the city on business The Misses Merrill left for New York yesterday for a visit

Mr. J. A Greenleaf, of Auburn, wa o the city yesterday J. M. Sanborn, Esq., of Newport, was n the city yesterday on law business Mrs. E C. Danforth has gone on

trip to Boston. New York and Balti-Mr. Hiram Bliss, Jr , of Washington, D C, is in the city at the Bungor House.

Miss Mildred F. Varnum went to Old

Town yesterday to begin her class in dancing Mr. Jno C. Remuk, of St. Paul, Minn., was in the city yesterday at the Bangor Exchange.

Mr. O S. Fowler, a prominent undertaker of Wayland, Mass, and wife, are visiting in this city. Mr. G A. Mathews, secretary of the

Waterville Young Men's Christian Assoclation, is in the city. Mrs. George F. Sargent and Miss Min-

ille, and Mr. and Mrs C. E. Packard, of Cuilford, were in the city yesterday. Mr. and Mrs. F L. Billings, of New York, were in the city yesterday on their

return from a hunting trip. They had a ine moose head. Mrs. R. S Talbot, Miss M. L Weather bee and Mr E A. Weatherbee, of Lincoln, were in the city yesterday at the

Bangor Exchange. Rev. C. E. Angell at the carnest solicitation of her congregation and church has decided to withdraw her resignation as pastor of the Norway Universalist

society and will not go to Caribou. Mr. and Mrs. Obed Foss, of Houlton, were in the city yesterday and left last evening for Altamont Springs, Pla., to pass the winter. Mr. Fose has a mill there which manufactures grange and mon shooks, lead pencil stock, etc.

Maine State College Notes. The sophomores and freshmen have good muterial in their foot ball team and the series of games will be interest

ing. Prof. Flint is preparing a paper of "Efficiency of Belt Joints." So far as can be ascertained there is no record of tual strength of laced joints in belts. It is proposed to test with refer ence to not only the actual strength of oint, but also the advantage. If any, of punched holes over holes made with an wl. Matal books found in the market will also be tested. This paper is to be ead at the convention of the Association of Colleges and Experiment' Stations to e held in Washington. November 13th. The senior engineers, together with Prof. Hamlin and Mr. Grover, made a trip to Pushaw lake last week to determine the rate of flow of the waters of the lake and also of the flow of Pushay

stream. On Thursday evening President and Mrs. Harris gave a reception to the mem bers'of the faculty. Quite a large namber were present.

Mr. L. N. Edwards, of Ot efield, ha entered the freshman class.

A Pleasant Social. e Y. P. S. C. E. of the Centra shurch had a very enjoyable Hallowe'en social at the church vestry last evening There was a large attendance and the consion was one of much succ desorations consisted of lack-lanterns ite., and they were very tastefully ar rangell. The fortune booth was presided over by Miss Ethel Stetson. A Hallowe'en cake and candy fur

nished delicious refreshments. A musical and literary programm was given during the evening with piqualing effect. The programme was as Inlows:

Each number on the pragramme was ducly given and the hearers were enjoys bly entertained. The socials of this society are noted for their many pleasant

WILL BE INVESTIGATED. ne Selzed Under Suspicion of Having Been Hunted with Dogs. Yesterday forenoon a suspected case of hunting over with dogs was taken in hand by Fish and Game Commissioner T. H. Wentworth and investigated as far as possible at that time. Monday evening Charles Withce, Pearl Willey, Wil-

Stevens returned from a hunting trip

They had six deer, two bucks and four doe, all of which had been shot through the head and nowhere else except in the case of one deer which was struck by a bullet on the rump, the bullet going along the spine. The deer were also wet. They were seized at the depot by Detective G W Hairfman, taken to the American Express offices and held until csterday morning The investigation pesterday brought out the fact that Stevens left here last

week with two dogs, a cance, gun and other outfit for game. He went, it sald, over the Bangor & Arnostock rallroad to be becale Lake and from there to Sebols Lake There he met the four men named above. When they returned Monday eyening Stevens got off with his dogs at the Exchange street station and his cance and other outfit went along to the western depot, it is said The explanation of the deer being wer

given by the men, is to the effect that water came in over the canoes in which they were carrying them. Mr Stevens claims that he got no game on the trip and says he has no interest in the six deer. The deer are claimed as follows C Withee, 2, P Willey, 1, William Fellows, 1. J. Pierce, 2. They were tagged to Withce and Willey which is violation of section 13, of chapter it of the game laws

The result of the heating of the case was that they were allowed to take the deer but there will be further investign tion by the wardens as it is suspected by the officials that the dogs were used in securing the game

He Had Money to Burn

"How deceltful appearances are some times," says a well-known Maine physi cian, commenting on a little experience of his "We see non with fine large of his painted buildings on their farms and are apt to think they are men with plenty of neans who will pay cash down tor what they get, but often we are mist then in this notion, for in far too many instances the big buildings represent an invest ment of borrowed money that is like a mill stone round the farmer's neck But what I was going to tell you was not of this nature-in fact just the opposite A year or so ago I was sent for to

visit a patient some thirty miles away, and when I got there the promises were so run down and rickety that my bon, who was with me, said, when we drove late the yard, 'Well, father, I guess we've got our trouble for our pains to day, No fee this time it I am any judge' Everything around the place was so scant and shabby I would not have g ven much for my chances of pay My visit over, I was about to put on my overcoat to depart, when the man said, 'Hold on, doctor, I haven't paid you vel What's the bill! I was surprised at his honest manner and named the amount, when he ran his hand into potact of his ragged trousers and pulked out a roll of bills that made my Lyca stick out He certainly held enough eash right there in his fist to buy one of the best farms in town ;

Total Destruction by Fire Our Klugman correspondent writes Last Tuesday morning the farm houses together with the shed and harns of Samuel and P Davis, two brothers who lived on the Monlunkus stream, between here and Macwahoc, were totally de stroyed by fire. All their hay, grain, horses, cattle, farming utensils and the furniture in the houses were also burned It seems the fire canchain one of the barns and had made considerable headway before being discovered and there being very little help at hand, it was impossible to either save the buildings or their contents The second set of buildings were situated so close to those that first took ille that it was out of the question to prevent them from igniting There was no insurance and as they are nie McDonald returned home yesterday both poor men their loss is a very severe one, especially at this season of the year in At this writing we have not learned the origin of the tire but since it begun in one of the barns It may have been the work of an incendiary Such examples as these should be a warning against the negligence that prevails too freely of not having property covered by some insur-

anco

The Barnes' Family Reu A correspondent writes the thir teenth annual roundon of the Barnes family was held at the home of Edwin Barnes in Hampden on October 17 Although the morning was cloudy and showery, there were twenty present, the eldest being seventy-nine, and the young-est two years old. There were five of the children of Renamin and Lydia Barnes present, also Mrs Lucy Emerson, of Hampden Corner, Mrs. Julia A. Pres cott, of Hermon, Edwin Bannes, of Hampden, Frank C. Barnes, of Hermon and Mrs. Hatty A. Temple, of Hampden The combined age of the five is two hun dred and seventy-seven years. These with their families and the family of S K. Emerson enjoyed a bountiful repast after which they passed a few hours in social chat, talked over old times and wished that all the absent ones would have been present, but as all pleasan

things must end the party broke. Each returned to his own home feeling better for the day's rest and for having passed a short time with the dear one once more. All decided that a vote of thunks was due their kind host and hostess. The yearly meeting has generally been held about Christofas time. but as it is often so cold at that season. it was deemed best to hold the meeting a little earlier, while the roads were in good condition, in the hope of calling out a larger number.

The next meeting will be held at the ome of James M. Prescott, of Hermon about the middle of Septmember, the expot date to be fixed later. A cordial invitation is extended to all the relatives and a hearty wish that all may be present to enjoy the good time.

Very Successful Nimrods The Charlestown, Mass., Club nimrods have just returned home through this

ection with the largest amount of game ever taken by a single party from the Mogantic fish and game preserve, it is said. They accured the heaviest bear (weighing 400 pounds) and the largest buck (weighing 800 pounds) ever shot in that region. The bear was shot or Massachusetts bog by Orrin R. Dickey. president of the Boston Shooting Assoclation, and the buck was killed by Jacob W. Hoffman on Arnold pond.

The other members of the party who

shot deer are: Walter C. Prescott, O. H. Hallett, Howard M. Morse and B. Hyne man, one buck éach : Everett A. Stevens Dr. B. D. Robbins, Charles H Locke, Cant. Seth Low. Myron L. Weathernce. ope doe each, making a total of 10 deer. An eagle and any quantity of smull game, such as ducks, partridges, mink and otter, was secured by the party. All of this game will be on exhibiton at week.

HON. WILLIAM P. WINGATE Receives His Friends Upon the Oc-casion of His Eighty-Fifth Birth-day—Congratulations and Best Wishes for the Future.

his residence on State street. Many flowliam Fellows, John Pierce and Amass gave an added attractiveness to the

pleasant rooms

During the afternoon a very large number of the citizens called and paid their respects to the venerable and high ly esteemed gentleman Congratulations were showered upon Mr. Wlugate and it was the universal wish that he might have many more birthdays As Mr Wingate is hale and hearty notwith standing his advanced age his friends ex peet to offer, congratulations upon many

other anniversaries Among these who called jesterday afternoon were President A W Harris and the members of the faculty of the Maine State College Mr Wingate also received congratulatory letters from friends in other places. Refreshments were served during the day and evening Solo Solo Solo The occasion was very pleasant alike to host and guests and it will long be remembered

nemnered .

A brief biographical sketch of Mr. Wingste will be of interest to his many friends He was born in Milton N II October 30th 1809, and in 1822 moved from there to School Me In 1826 he came to Ban_or and has since resided here. The residence which he now occupies he bulk fifty eight years ago and all of his children were born and mar-Mr Wingate married Miss Phubi

Cook, daughter of Capt Cook of Newhuryport Mass, in 181 — They had six children and ilve of them were present yesterday. The firstburn was a soc, who

promoters was located at Orono mil Wingate Hall was named for born He was a trustee for sixtien years and president of the board several years. Hiscrvices in all of these comes have been of the highest order of other nev Mr. Wingate is a member of the Luritine Club

Foot Ball Notes

The Portland trins says Next saturday a hig crowd will witness the game of foot ball between Portland High school and Bangor High School at the latter city "there is going to be an awfully hard struggle and the result is anxiously awaited. All the "sports are going to see the fun and doubtless reduced rates will be procured on the Maine Central The Forest City con tingent will kave Saturday morning at

Both tennes have accomplished much so far this se ison, and the game promses to be very closely contested. I ast year three games were played, and inease each tram should gain a victory a third game will have to be played on ncutral ground, probably at Waterville. or possibly Lewiston Our team to gan the year with two or three old men, and all the rist were given and inexperienced men, but under the coaching of Chapman, they have showed what they could do Dyer, Allen and Chapman are doing the best work, the latter two

emarkably so, as they are new man Underwood blayed part of the Bowdoin 97 Pt H S, game as full back and proved himself an agreeable surplied to all, as he has not had a chance to show himself up before this lie made several superb tackles and bis kicking is good If our side scores a victory, Portand will be made fully aware of that fact on Monday evening by a celebration far exceeding any previous attempt Bowdoin and Bates will meet for the first time this year at Brunswick this af

ernoon. Bates has a heavy testa and will put forth every effort to score on Manager Prari of the High School second eleven went to Belfast yesterday to make arrangements with the Belfist High School first cleven for a game, in hat city soon, probably next 5 turday The second cleven will also play

the Orono High School in the negr future Bowdoin will play Massachusetts In stitute of Pechaology in Boston on No

ember 7th. Hebron Academy will play Thornton academy at Saco next Saturday On the Saturday following Phornton Academy will play in this city with Bangor High School and Hebron will play in Portland. All will be meaning games It looks as though the fight for first place would be between Portland and Bangor

as last year An Enjoyable Event

Our correspondent writes A party of the friends of Mr and Mrs. John O Andrews, of Exeter, met at their home on Monday evening last to celebrate the enth anniversary of their wedding Over fifty guests were present and a happy time resulted Pollowing the deiclous and bountiful supper, at seven, ame the reading of an original poem, by Mrs J. T Brown, in which she very prettily expressed the good will friendly affection of those present for their host and hostess. In the closing verses she presented them with a fine clock, the gift of Exeter friends Mrs F. T. Hall, of Bangor, presented a beautiful glass dish and Mr and Mrs McCrillie, of Dexter, gave a mantel picture which was pretty. The occasion was a very happy one and it was not until about midnight that the company dispersed with many good wishes.

Encounter With a Moose.

Our Kingman correspondent writes: berman Bubar had guite an experience with a monster moose at Wytopitlock hunting, when finding a piece of birch bark in his path he formed it in the shape of a horn simply for amusement and gave several loud toots on his read constructed instrument. Scarcely had the echoes died away among the lark recesses of the forest when he startled to hear a loud trainping and instant a large moose stood before him with combative intentions plainly marked in the fire of its eves. Having pothing but a shot gun Bubar thought it better not to risk an encounter with the huge denizen of the woods, so up a tall tree he hastly climbed, where he was glad to remain till the moose, after remaining on guard nearly an hour, plunged again into the thick woods. Occurrences of a deatures and such was the one of last; the Charlestown club-house during the like nature appear to be very frequent this fall.

ENJOYABLE MUSICALE or the Benefit of the Co-opera-tive Kindergarten Tuesday Even-

ing
A most enjoyable musicale was given Wishos for the Future.

Tuesday was the eighty-fifth birthday of Hon. William P Wingate and it was the occasion of an informal reception at the occasion of the occasion occasion of the occasion occasion occasion occasion. ers were received from friends and they large attendance. The house is relenequive kindergarten, and there was a didly adapted to an occasion of that kind and the music and readings were

heard to exectiont advantage Some of the best talent in the city were the participants and they gave the andience great enjoyment by their very pleasing rendition of the various num pers. Owing to the length of the programm, encores were not responded to A good sum will be realized. The following was the

Dr. PIERCE'S

DISCOVERY Cures Ninety-eight per cent. of all cases of Consumption, in all its out and covered for winter at Warren's

Earlier Stages.

Although by many believed to be incutable, there is the evidence of hundreds of living witnesses to the fact that, as all the earlier stages, consumption is a cumble disease. Not every case but a large percentage of cases and we believe fully of fer cant, are cired by Dr. Pierce's Golden Medical Discovery even after the disease has progressed so far as to induce repeated bleedings from the lungs severe ingering cough with copious expectoration (including tubercular matter) great loss of flesh and extreme cancention and weakness.

Do you doubt that hundreds of such cases reported to us he cured by 'Golden Medical Discovery' were genuine cases of that dread and fattl bisens.' You need not take our world for it. They have in nearly every instance been so pronounced by the best and most experienced home physicians, who have no interest whatever in mis representing them and who were often strongly projunced and advised ogainst a trail of 'Golden Medical Discovery,' but who have been forced to confess that it surpasses in currilve power over this fatul malady, all other medicines with which they are acquainted. Nasty cod hiver oil and its fifthy 'cambions' and mixtures had been trued in nearly all three cases and and citture interly failed to benefit, or had only see interfail and the hypophosphites had also been furthfully truck in vain. The photographs of a large number of those cured of consumption bronchits, langering coughs, astlying throme massicativith and kindred maladia have been excited a didness and six entits in sanapser.

last mile baying fatigued all hands very much, belug a succession of key hummocks and deep pockets of snow. The meal consisted of the cartridge soup, so calkd, made in two pots and giving every man the second cupful, biscuit, two pounds of corned beef in sileos, apples and tes. Some of the men having complained of inte of the fare, we took occasion as the first course was served to address the party and ask Mr. Franklin to interpret for us, reminding them that no other arctic sledging party had ever had such tell party state.

oobrse was served to address the party and ask Mr Franklin to interpret for us, re minding them that no other arctic sledging party had ever had such rich and whole some food in the field nor so much in nu trition or variety as we are having. Where other arctic expeditions had simply frozen other arctic expeditions had simply frozen penmican and ton we have our concentrated food in hot dishos, and fruit and ten busides, all hot I twas even necessary to remind some of the men that what shey have jokingly and perhaps in one or two instances succringly called "soup three times a day" was really only one portion of some pur day, the other two dishes buing an improvement upon the old style permindant in that it was richer in nourish ment and always surved hot. Those remarks, when interpreted into Norsk, were greeted with "Madgot good!" from the Norwegian contingent.

Another dog was socified tonight for the breakfest of his mates, nearly all of whom have learned to enjoy the cannibal isto feast. The men jokingly undressed the victim and prepared him for the execution by taking off his collar and har ness. Mr Dahl is our lord high executioner.

ness. Mr Dani is our lord high executioner.

Just after retiring to our sleeping bags, and while all hands'were smoking, a ther
mometer was swung for five minutes over
our heads and within the awnings 10
our great surprise, it registored 70 degrees.
If the temperature outside was 33 degrees. About midday we were ull roused
from slumber by the heat. Though we
had crawled only half way into our sleep
ings bags and had raised the awning before
going to sleep, the temperature was not to
be endured. We had to get out of the
rednakins entirely and pass the remainder
of the day under the half blanket which
we use for a pillow. This evening about 5
we use for a pillow. This evening about 5 of the day under the half blanker which we use for a pillow. This overing about 5 o clock a strong wind from the south sprang up, and know he was made as much drill culty in keeping warm as we had before in keeping cool. We breakfasted at 7 o'clock and set but on our pouracy at 8 in a howling wind which sent the snow flying in hurtling, whistling clouds. It bear into our faces and the cycs of the poor dogs, making the work exceedingly un comfortable. One had to work hard in or der to keep warm, and, the road improving, we made rapid progress. A little after 11 o'clock this exeming when we were within about six miles of Cape Platen and had advanced nearly four miles, Captain Pedersen mounted a black bloom of the content of the conte

who we ware within about six miles of cape Platen and had advanced nearly four miles, Captain Pedersen mounted a high piece of ice, cast his oyo to the north east and took off his hat and shouted it flurrably Open water? We had I chambered to be beside him and a shout of joy haped from all our throats. To the northeast, as a far mount vision could extend was a bread and bean looking for The ite had even opened out from the yielaity of Martin's beland, and had we but known it we could have remained in camp there saved our solve and hambered our bands thate at well as here. But in ancide with as in many other affairs of life one cannot look for abade, and our policy has been and will continue to be to work on though water whom we can, not the ice wire we must. Naturally enough, the men are illured of the hard wick of dank, and the work of dank, and the work of dank, and the work of the hard with continue to be to work on though water whom we can, not the ice wire we must. Naturally enough, the men are illured of the hard work of dank, and the work of the short and will continue to be to work on though water whom we can, not the ice wire we must. Naturally enough, the men are illured to the hard work of dank, and the work of dank and it is the more many for the hard work of dank, and the work of dank and it is a farther up on the ice and will some his a dank of the will be a count tool, far abade, and all hands set to work on the will be a count tool, far abade, and the prepare to go to in the house of the three will be a count tool, far abade, and the prepare to go to in the prepare to go to the three dank of the will be a count tool, and the work of the short of the will be a count tool, and the will be a count tool, and the count to the prepare to go t

were delighted to find the, and suffered so little during the order to which they had been subjected. The Parry was intact. The Kane had been benear little by order shows with the ice but we a tight and whole. The Lockwood had a hale in it about a quarter of an inch in diameter which was easily stopped up. The rivets in all the plating of the beats seemed as well set as the day the eraff came from the builders shop. In an incredibly short time the salformen had put up mast with hambee pokes and rigged sail to them. The leads in the boats were rest, we do not not seen as the beats were rest with for a very logic. BIG (AME

age. Pwelve of the dogs are led away behind age.

Twelve of the dags are led away behind the high fee and shot pear recompanse for the services which they have rendered us. It was not he above the services which they looked up with friendly eyes at the men who held the deadly rifles over the men who held the served us faithfully and had suffered more offern their share of the hardships of the journey. They had slope in this snow and shit and in the wind had left a trad of his od behind them from their some first had massed many a meal and dired half the time on shear interns. But the necessities of are the work know no such thingas phy where dogs are concerned and the riflese cracked upon after an able and the copies of our faithful services. A doctor dogs remain and their face homes in the accordance. We have not yet deaded which it we shall take them with us on the barts or meralfully put an and to their category with our who helds a before a meralfully put an and to their category with our winds before meralfully put an and to their category with our wing heater to before a meralfully put an and to their category.

dogs romain and their tax hangs in a raisence. We have not yet dealed which it we shall take them with us on the banks or meralinily put an ond to their cateors with our winchesters before embarking. The boats being made ready for launching, it was found that no ruom remained for dogs. They couldn't be earst d with out filling the boats so full that the rowould be no room for any on to stir, and there being no other way out; I the dillicate being no other way out; I the north team of the set of the set of the other of the order to have the remaining dozen si of If we are able to reach land to the north east, a dozen of these dogs would be of the estimable value to us in our sledging operations there. We have been compelled to kill today at least 20 good draft animals dogs that pull a heavy lord and keep it up. 'I day long, strong and of great endurance, able to withstand any sort of weath ance, able to withstand any sort of weath and with their fock at first somewhile sort, constantly getting better. Of the 65 dogs which we bought in Belgium perhaps 30 or 35 were useful in arctic work. We lost some by accident, others; strayed away, and a few were spolled by inconsiderate treatment and lack of patique on the part of the men. During the first work of their service they were at their works, but improved daily. Had we exercised a little more patience in their use one exercition with Belgian draft dogs would have been a marked successes. It was a success as it was, notwithstanding the long confinement of the animals of the limits which they labored when finally put to work. They are yeal adapted to be also be a supering to a conclusion work, and we regret exceedingly that the change of plan made necessary in our expedition by the adoption of the east erround and the language of t

only to find that just at the moment they were becoming of real value to us it is nec were becoming of real value to us it is nec-essary to leave them behind, killed out of mercy. If we had the best dogs in the world—and some of our unimals could not be improved upon—it would be the same We and they would have to part dompany at the water's edge. Some of the men nearly shed tears as the winchespacen. It ed out the death of Wolf, Tom, Bebs and others who had become favorities by their great strength and willingness to lyock

acarly shed tears as the winchesteps crack ed out the death of Wolf, Tom, Bebe and others who had become favorities by their great strength and willingness to work. Perhaps the saddest fate of all was that of Bob, who long reigned as the king dog aboard ship. He ruled the pack with his iron jaws. All the other dogs were afraid of him, and mest of the men also. None but Mr. Franklin would make friends with him, and for Franklin Bob apparent to have genutine affection. As soon as we came appen the lee the other dogs wrashed to have genutine affection. As soon as we came appen the lee the other dogs wrashed to hive genutine affection. As soon as we came appen the lee the other dogs wrashed to hive sengennee upon the king. They reballed against his rule, and by cone at of action bet upon him and chewted and tore and hit him into the most miserable specimen of dog life that ever walked the earth lie hung about the camp burdy able to walk, but compolled always to keep out of the way of his brother, who seemed never to tire of "taking out of his hide "recompanse for the like and to mants they had suffered at his hands during the days of his reign. But for the interession of Mr. Franklin Bob would have been shot long ago. Pride never had a greater full. The last seem of old Bob was thrue or four days ago when some of the men went back to Marton q ishand for driftwood. There by the refuse of our old camp, lay the finmering gotting our beats and sledges across a half mile of pressed up lee to the dege of the water. But the number was so glad to see the ocean rippling before the methal difficulty in restraining their arrior and preventing them smeshing the compliance, to enger were they for the immediang. The wind died away and the son should have been oney their faces as they work at the wen be the other had the day the setter which and the wen see the the set of the water with the limit we not the wen be not the died away and the son should have neated the sadies of the water with all

hearts to see the occan caim and blue and no kee in sight to the castward. An hom more was spont in preparing for the very age. Our four aluminium sledges who hashed together in pairs canding two alter the Lockwood. Before endmaking a number of wasterness and dived into the safetom the high ice, greatly to the astornal must of a seed when the pairs and the direct of the astornal must of a seed who was swimming about a few yards away. At 11 o clock we set sail and the wind dying away took to our cores. This cambridge, after five hours of hard week and value that has been 20 hours hing we made our part of must be presented.

camp near Cape Platen, every one with the dand industrable the weather beyon become Inclement. After support to is such a ration of brandy and then convict

stied a ration of hrandy and then or whet into our sheeping bags. We were so minch fatigued that we fell askep with our lighted eigers and paper in our mouths. In half an hour all were roused by the voice of Captain I rates a calling us out. The wind had shifted to the one-thwest and blowing strong hat because up the sea and began to break, aff the edge of the shore ien where our camp was. In a june the pleasure of bing to all done of our warm sleeping bags hato the cold wind to move the beats and sledges to a place of greater safety. I other this we had not far to go and in half and in everything had!

opined
Dr. Mohun and others found shurgest ing places in the let of masses of me Presently a narrow strip of open water appeared ahead of its, and we set out. The wind was almost a gait, and we never we get for from the shore to the lap waves wind was almost a gait, and whenever we got far from the shore to the lar waves made our little beats dance a lively turn. The Kame fell far he hind and we soon signaled the Lockwood to join the Parivant the edge of the hea and wait for he when she came up, we held a council of war, and as a result of 11 issued orders that all the beats should 1 dop as near the shore he as possible and that the larry abould take the kame with its shedge in tow Our idea in this was that near the fast ice the water was smoother than far ther out, and that it ease of trouble to it there of the beats the shore to would be near at hand to make fays to "Ibis second a wise precentle, and if he order had been carefully obeyed we should have had no trouble. But about 4 o clock in the afternoon, before we had realized that far farmed a wise precentle, and the fame of input threatened the Parry and the Kame found thouselves in a most perious shore los, across the mouth of which the wind was blowing with tremendous force. At first it was our intension to cut across the sea end of the bay and around the point of tee beyond. But, seeing the Lockwood working up the bay, evidently to make camp for supper, we changed our course and endpayored to followinto the bight. It came near boing a fatal change of plan for us. As the Parry and Kame founds a such trought about trends the to wind were brought about breadside to the wind

broken pieces, and the nature was practically over. It was the work of a moment to pull the Parry upon the margin of the solid lea and then to run the hand and the two sledges through the opening thus made. We were out or our trouble almost as quickly as we had been plunged into it, but for several minutes it looked as if we had for the strong time of the property it, but for several minutes it looked as if we had for the second time in our expedition sufficied so louis slight reck in the jaws of the life. In the work of extricuting the boats and sledges from their portla all hands showed fine courage and presence of mind Salius Libeter and Howdo risk, ed their lives by getting out upon the dancing, loose piece while the four young men from Christianh—Captain Juell Aime, Dahl and Heyerdahl—were equally brave and prompt in resculing their bont, the kame and the strages Mr Diage, in the his of the strages of the ice, while Professor Princip did this bast to kep the bont from binang to pleas. While assisting in this task in M shoung trivial that the vertical strage in the history of the surface of the ice, while Professor Princip did his bast to kep the bont from binang to pleas. While assisting in this task in M shoung trivial his right what we strend upon firm ice and had the bonts and sledges by our side. Our satisfaction we increased by an examination of the craft which showed that the one of the many of the man in the party of the proposal content of the craft which showed that the content of the many of the many of the proposal content in the content of the craft which showed that amin trion of the eraft which showed the none of them had been injured in the slight at by their bottle with the surf and

the ice. The facin and had sailed up to the head of the bay, but Captain Principle the head of the bry heat (uptain the pto the head of the bry heat (uptain P denom and others of her crew ammo over to our landing hace and after consultation it was decided the Lockwood should Join the other two beats for earny. This was of feeted in good sailor style by Capitain Pederson and his men, who however against the wind to a point opposite the spot where we had had our little lattle which the help of our men, with backet mes and then diffied in and tand cl, with the help of our men, with backets in their hands without much trouble At this pine about eight inflies northwise of they Palatin we camped for the night the westerly gade continuing and the act desing up to the north and cast thus butting up to the north and cast thus butting up to the avery comfortable camp out we we glad enough to the our hot supper and crawl into me In the boats. It was not a very comfort able camp but we were glad enough to the our hot supper and crawl into an sleeping bugs ifter the excitement and dangers of the day. WALTER WALLESS

The flexer struggle for existence of an 151 Side family was shown when a lamp overturned and set fire to the house, says the New York Admitteer Lewis Leobson is a shocmaker and he lives on the third floor of the house. Although he works twenty hones uplay he is un able, so his wife said, to give more than bread and water to her and his two lit the children. The family lives in two squalid rooms, one of which is the work squand rooms, one of which is the work room for the husband and the other the living room for the family. The clays ago he said to his wife. Of Lucsday evening Yom Kappur will communic. I that is one of the most satered of the Jewish church days. I do

commence. I that is one of the most sa-cited of the Jewish church disks. Thow I am going to stop my work for an entire disk. Then the talked over the matter as I teobson werked and he decided that he would not sleep until the holmay be gan—the would work day and night until that time and then he might keep his holiday and still have coough for his tamely to cat. At few o clock in the morning of teob-son was still it work. He had been set ting three for fifty two hours. Around the little bunch where he sat the shots that he had repair if were lying three feet high repairs. He was so the data the could to bengte keep his cycs open and he slipt is I two keed. A lamp fell and set fine to the rooms some one sent quit in darm for the fire depart in or When the firemen busis into the found there was no fire, but the flee fighters four differ man and the women weeping as they kield on the floor weeping as they knelt on the floor

make camp for supper, we changed our course and endeavored to followinto the bight. It came near being a fatal change of plan for us. As the Parry and Kanu were brought about broadside to the wind and their sails taken in the gale swept them with amazing rapidity toward the edge of the lee, where the surf was tossing in the air and large and small ploces of the were sugging up and down furtensty. He fore the men would get out the care—and in the strong wind it would not have made any difference if they had been all ready manned—we were upon the lee shore of the lay. It was a critical moment, but luckly every man kept his head. With ours and heat hooks we held the two bases off the loc the bust we could, though, with all our efforts, we ground inguinst in with a force which threateful to destroy the craft under our feet and leave us struggling hand the water and lee. Hay ing come broadside an, our danger was the greatest, and the first thing we endeavored to de vige to swing the seen attward and force an entrance low an. So great was the pressure of the wind that are one moment is looked as if we should not be able to do lije, and that it some of we did not did weeked, even it some of we did not

the pressure of the wind that at one moment is looked as if we should his be able to do this, and that the expedițion would be wrecked, even it some of its did not lose our lives. The boats were bobbleg up and down like a pair of corks in a storm tossad see, and the aluminium sledges, containing 1,000 pounds of our products feed, were without protection astern the Kame and it imminent danger; of being ground to pieces Fow words were spoken in this moment of peril, save by those in antifective. Every man worked for dear life; lind we soon had the infinite satisfaction of seeking the pow of the Parry point of its between two large pieces, where the force of the wind, joined to our efforts, soon drove her farther. In a few scoonlistic min had jumped out upon floating pieces, though partly submerded, which were moving up my down in pieces at my manuals.

Standang in water up to high knees,

Standing in water up to their knees, they pulled the Parry further taying the solid ice, and in a few seconds more we warp all out of the boat upon the surging,

A warrant was issued in Allen county, kansas, on complaint of Nelson F Acres, for the arrest of United States Semetor John Martin, charged with criminal libel in an interview about a weekings, Senator Martin defended Governor Lewelling and other Populast Sade officers against the charges of corruption made by Acres, and denounced him as a gambler and all-round disseputable person. Acres was collector of internal revenue in kinness during Cleveland's first administration and has for years been prominent in Democratic circles. When he saw Martin's interview he came to Topeka and promptly demanded re-

A Rome despatch says the appointment of Prince of Hohenloke to be the German Chancellor and Prussian Premier has made a good impression on Italian politicians has made a good impression on Italian politiciars

A Topika. Kansas, despatch says Until superintendent of Insurance Sonier assumed charge of the insurance Sonier assumed charge of the insurance department of hardwas, no attempt was made to collect the "reciprocal tax" from fire insurance companies doing business in this State. He found fourteen fire insurance commonies of New York doing business in Kinsas, hable for a tax of \$2\$ for every \$100 pt in lum collected in the State he estimated was \$416 000, and as the companies refused to pay it, he brought suit in the district court for the amount last August. Representatives of the companies refused to pay it, he brought suit in the district court for the amount last August. Representatives of the companies pleaded statute of limitations of a large portion of the claims, and also leadined that they had destroyed all records of their business for the prilod anti-dating 1889. Last Saturday the case was settled by W. C. Webb, appointed by the Attorier General to prosecute the case, for \$12,000, and the settlicit in the was approved by the superintendent of insurance. The companies agreed to pay the tax in future. It is now diamed that no one had any authority to settle the case outside of the court except the legislature and that the compromise cannot statute of limitations does not apply against the State. Republicans propose to institute an investigation. They will demand that unless the companies propose to institute an investigation, the superintendent of insurance will revoke their license.
